

FAMILY BUSINESS
CENTRAL

One of the most challenging things about being in a family business is that **there is often no one to talk to about the critical issues you face** - especially when it involves family and business.

Family businesses are complicated
- the mix of love, money and business is potent.

Family Business Confidential (FBC) groups consist of family members meeting with other family members from non-competing businesses 10 times a year. Here you can discuss your family and the business and how they impact on each other.

FBC is unique in New Zealand; while other business groups offer great support for business, none can manage the combination of family, succession and business.

Led by expert facilitators in psychology and business who have years of family and business experience, the FBC is seen as a critical part of many family businesses' success.

In your Family Business Confidential (groups are limited to 10 non-competing family businesses) you will be able to:

- Talk confidentially about the core issues you face in your business and family
- Share and learn from your peers about how they manage family and business
- Share growth strategies and commercial experience across a variety of industries
- Share ideas and methods of managing succession effectively
- Learn what others are doing in all areas of their business

It is confidential, effective and invaluable to you and your business!

We have been involved with these groups for over 10 years - group members rave about what they get out of being in a group and how much it has helped them and their family.

As a facilitator...Philip is the best I've ever had. He knows when to be visible and keep us on track but even more so, he knows when to be invisible. In my humble opinion, this is an art not a science and he does it brilliantly. **Kevin Smaller**

Call us now to **find out where your nearest group is.**
